

MIRACLE[®] NITRILE EXAM GLOVES

Miracle glove is a thin gauge, light weight, powder free nitrile exam glove. It is soft and very flexible, providing an excellent “skin-like” fit and feel for superb tactile sensitivity. It is 100% rubber latex free eliminating potential risk of latex sensitivities.

The gloves are packaged in an environmental friendly way with 200 pieces by weight (180 for size XL) in a standard size dispensing box. Hence, it saves you space, packaging material, money and time as you don't need to replace empty boxes as frequently.

Miracle glove was awarded one of The BEST Products of 2014 by Clinicians Report Buying Guide. The gloves were also evaluated by the independent consultants of The Dental Advisor (TDA) and received a 90% clinical rating after thousands of uses.
